T Wallis (1983)

Pa - co Ko - men - cu  
 peace is the way we go Pa - co Ko - men - cu  
 Let peace be - gin Peace is a way to live and  
 peace IS the love we give, peace is the goal we share and  
 peace is the get - ting there. peace is the plea plea we cry and  
 peace is the rea - son why - - peace is where our hopes are pinned so  
 let peace be - gin.

2. Peace begins with you and me  
 and everybody else we see  
 the world could be a family  
 if that is what we try to be  
 peace will come to every nation  
 when we learn communication  
 together in one big celebration  
 let peace begin...

1. So let us sing in joyful chorus  
 Its sure to bring peace closer for us  
 Music is a common language  
 We must use it to advantage  
 Peace is but a symphony  
 Made up of a million melodies  
 So everybody sing out peace now.  
 Let peace begin...
